

Body-Gard® Traditional Rust Protection

The salt used on our winter roads, combined with moisture, produces conditions for rust to form and damage your vehicle. Body-Gard® Rust Protection extends the life of your vehicle by providing maximum protection against rust.

Body Panel Protection

- Penetrates seams and crevices where rust begins
- Prevents moisture from attacking even the most recessed, vulnerable metal body panels
- “Drill-free” application process
- Available for new and pre-owned vehicles

Body-Gard®

TRADITIONAL RUST PROTECTION

With Sharkskin Plus® Ceramic Protection

Sym-Tech®
DEALER SERVICES

AN AMYNTA COMPANY

Body-Gard® Traditional Rust Protection

Specially formulated to protect the high impact areas of your vehicle.

Underbody Protection

- Seals out moisture and protects the bottom of your vehicle
- Protects from damaging gravel, dirt and road salt
- Helps provide a sound barrier for a quieter ride by dampening vibrations
- Won't crack, peel or chip

Sharkskin Plus® Ceramic Interior Protection

Sharkskin Plus® Protection is the next generation Ceramic protective coating for all automotive surfaces. Once applied, the advanced Ceramic coating in Sharkskin Plus® form a protective layer that bonds to the applied surface and repels pollutants and contaminants.

Upholstery Protection

- Helps keep upholstery looking new and clean longer
- Helps repel liquids and block stains
- Does not alter the look and feel of the upholstery
- Resistant against bacteria and mould
- Contains no toxic chemicals

Sharkskin Plus® Graphene Ceramic Exterior Protection

Paint & Wheel Application

- Reduced Graphene-Oxide increases coating strength, hydrophobicity, and makes the coating more resistant to detergents compared to traditional ceramic coatings
- Protects against weather, oxidation, pollutants and contaminants.
- Eliminates the need for waxing and makes treated surfaces easier to clean

Glass and Mirror Application

- Increases safety by improving visibility of the windshield, side windows, rear windows, and side mirrors through rain and snow
- Extends wiper life by reducing the need for wiper usage

Unpainted Plastic & Soft Top Application

- Protect the factory look and feel of unpainted plastic trims and repel pollutants and contaminants
- Protects convertible softtops and repels liquids and contaminants.
